

POSSIBLE NC-FUNDED PROJECT SUGGESTIONS

| # | Category | Location to be improved | Problem/Suggested Improvement | Comments |
|----------|--------------------|--|--|---|
| 1 | Street Improvement | 5600-5900 [2nd St S] | The first part of street is in desperate need of repaving. The end part of 2nd street is always leaking water of some type causing street erosion. | 5700 block already addressed by 2nd St S/Kensington St project due to start in 2019. 5600 block will be repaved when project blocks are paved. KR to send email to suggester to explain this. |
| 2 | Street Improvement | 100 S. Kensington | Horrible road conditions causing wear and tear on cars shocks and tires. | Already addressed by 2nd St S/Kensington St project due to start in 2019 - KR to send email to suggester to explain this |
| 3 | Street Improvement | 5600 block of 4th St S | Road is in terrible shape and paving was skipped/not done in front of a few homes. Lack of sidewalks makes this high traffic block (due to park at end of street) less safe for pedestrians. | Included in unfunded 4th St S project, which is too large to be submitted under new guidelines. KR to send email to impacted 4th St S residents explaining this. |
| 4 | Street Improvement | 2nd & 3rd St [assume this means the entire length of the streets] | Horrible pavement. | 5700 block already addressed by 2nd St S/Kensington St project due to start in 2019. 5600 block will be repaved when project blocks are paved. KR to send email to explain this. |
| 5 | Street Improvement | 5900 block of 4th St S | Sidewalk stops halfway down the street - would be nice to have it extend the entire street length. | KR will check with NC to see if this qualifies for "missing sidewalk segments for three properties or less." On the county GIS map, it looks like it does. Could fit the new NC project criteria. |
| 6 | Street Improvement | 5900 block of 4th St S | Above ground utility wires are unsightly - would like all above ground wires buried underground. | See also #39 (BE). |
| 7 | Street Improvement | 5900 block of 4th St S | Carlin Springs Road traffic constantly block street - would like markings on CSR to indicate to auto traffic to stop before the street/not block the box. | Pursue with county as a safety issue. |
| 8 | Street Improvement | 500 block of Jefferson St | Storm rain water run off down 6th st south to parkland is eroding earthworks | Related to Recently Suggested Environmental Projects #7, but much larger in scope. |
| 9 | Street Improvement | [Between Manchester and Kenmore] | Service road - Arlington Blvd - worst road in the neighborhood. | See also #36 (BE). |
| 10 | Street Improvement | 5500-5600 4th St | [No description of current problems] | Included in unfunded 4th St S project, which is too large to be submitted under new guidelines. KR to send email to impacted 4th St S residents explaining this. |
| 11 | Street Improvement | 400 block of S Kensington [assume this means the west side of the block] | Add sidewalk to connect with sidewalk on library block and 5th St (safer route to school bus stop). | KR sent email to suggester to clarify which side is meant, if there is curb/gutter already in place on that side, and if the west side of the 500 block already has a sidewalk. |

| # | Category | Location to be improved | Problem/Suggested Improvement | Comments |
|----|--------------------|---|---|--|
| 12 | Street Improvement | Sidewalk on Kensington between 1st and 2nd Sts S. | Old and battered asphalt with holes. No sidewalk on this one block, despite lots of foot traffic to trails & park/library. Without a curb the blacktop blends haphazardly with yards. If on walks on yards instead of road, there is a hidden yard hole where my kids and I often fall. Cars often take the 1st St/Kensington corner very fast, which is unsafe for pedestrians (including my kids!). | Already addressed by 2nd St S/Kensington St project due to start in 2019 - KR to send email to explain this. |
| 13 | Street Improvement | 5600 block 6th St S | People still get lost and have trouble turning around at dead end. Suggestions: sign "5601-5621 S 6th St ONLY" or equivalent. | Pursue with county. |
| 14 | Street Improvement | 5500 block of 4th St S | Need sewers, storm water drainage, sidewalks for safety of children and people walking in the neighborhood. Street uneven on 4th St S, improvements & paving street would make 4th St S more attractive. | Included in unfunded 4th St S project, which is too large to be submitted under new guidelines. KR to send email to impacted 4th St S residents explaining this. |
| 15 | Street Improvement | 5600 block of 1st St S | On north side of street, between 5613 and 5617, there are two gutter drains. The top of each should be painted with reflective paint to alert drivers not to drive into them. | Pursue with county as safety issue. |
| 16 | Street Improvement | 5500 & 5600 blocks of 4th St S | Repaving and storm water management | Included in unfunded 4th St S project, which is too large to be submitted under new guidelines. KR to send email to impacted 4th St S residents explaining this. |
| 17 | Street Improvement | [Not specified - from T Aiken questionnaire] | Width of new sidewalks should be reduced from 5 ft to 4 ft. | At every opportunity, we will continue to raise this issue. Current county policy allows this only if street width is narrow enough. |
| 18 | Street Improvement | [Not specified - from K Krug email] | More sidewalks are needed on 3rd St down towards the park and on 4th st. | 4th St S unfunded project partially addresses the 4th St part of this suggestion. Could possibly consider a one-block project for 3rd St S (5500 block?) to try to get it under the \$500K limit, especially if block already has curb/gutter. |
| 19 | Park Improvement | Picnic shelter number two | As you work on shelter number two you could enlarge the existing area so the grills are undercover. More trash receptacles at the major park areas | |
| 20 | Park Improvement | VHC property | Need to provide input soon on park and recreational use of VHC property when it is developed. | |
| 21 | Park Improvement | No locations specified. | Adding poop bags for dogs around the neighborhood and in the Carlin Hall park | |

| # | Category | Location to be improved | Problem/Suggested Improvement | Comments |
|----|------------------|---|--|--------------------|
| 22 | Park Improvement | [Not sure which entrance - 4th St?] | Road into park is too narrow. Dog park needs turf improvement. Fence with gate needed for owners that want to keep dogs out of water. | |
| 23 | Park Improvement | Bluemont bike trail from Carlin Springs underpass to old train car. | More trash cans. | |
| 24 | Park Improvement | No locations specified. | Removal of porcelain berry vines. Banning of motorized scooters, skateboards, and hoverboards. Motorized vehicles are prohibited on the bike trail, but there is no enforcement. | |
| 25 | Park Improvement | Long Branch Nature Center trail. | The trail to Long Branch Nature Center from 6th St South needs major improvement. It is not inviting, soothing, or inspiring. It looks like a war zone. | See also #28 (PI). |
| 26 | Park Improvement | "Glencarlyn" neighborhood signs. | Plants, flowers by neighborhood ("Glencarlyn") signs. | See also #34 (BE). |
| 27 | Park Improvement | No locations specified. | Remediation of poison ivy along trails. | |
| 28 | Park Improvement | Long Branch Nature Center trail. | Regrade and mulch trail from 6th & Jefferson to Nature Center. | See also #25 (PI). |
| 29 | Park Improvement | Paved trail between 2nd & 3rd St S | Fix potholes along paved trail (top of hill) between 2nd & 3rd. | |
| 30 | Park Improvement | Foot trail between 2nd & 3rd St S | Maintain foot trail (halfway up hill) between 2nd & 3rd. | |
| 31 | Park Improvement | Between Columbia Pike & dog park. | Trash can along bike trail between Columbia Pike & dog park. | |
| 32 | Park Improvement | No locations specified. | Once new landscaping/trees are planted, make sure they are watered. | |
| 33 | Park Improvement | 2nd St S park entrance | Trash receptacle needed at 2nd St S entrance. The small tributary at 2nd St entrance to park should also be restored to more natural state. | |
| 34 | Beautification | "Glencarlyn" neighborhood signs. | Have the Glen Carlyn signage area more attractive | See also #26 (PI) |
| 35 | Beautification | No locations specified. | I like the idea of adopting a neighborhood tree or plant and planting them around to show a sense of community. Also the trees around Kenmore could be cleaned up. | |

| # | Category | Location to be improved | Problem/Suggested Improvement | Comments |
|----|-------------------------|---|--|--|
| 36 | Beautification | Carlin Springs Road around strip mall and overpass. | Carlin springs and areas around tacky strip mall need improvement. Bridge is ugly. Alternative landscaping that discourages panhandling. | See also #9 (SI). |
| 37 | Beautification | 5600 block 6th St S | Native plant landscaping along 5600 block 6th St | Covered by Recently Suggested Environmental Projects #6. |
| 38 | Beautification | Cemetery | I suggest turning a small corner of the Ball-Sellers former cemetery, near the library garden, into an apiary. That is, let's raise bees there. 4 or 5 hive boxes will take minimal space and that area is already fenced off and locked from general entry. | |
| 39 | Beautification | No locations specified. | Bury ALL above ground utility wires! | See also #6 (SI). |
| 40 | Beautification | Dog park | Improve appearance of dog park | |
| 41 | Beautification | Library parking lot | Concealing the dumpster and mulch pile in library parking lot. | Effort will continue with library/county. County recommendation to replace dumpster with additional trash carts next to library was not agreed to by Master Gardeners. |
| 42 | Beautification | No locations specified. | bushes, annual flowers | |
| 43 | Beautification | Harrison St island in cul-de-sac | No specific suggestions. | Covered by Recently Suggested Environmental Projects #8 |
| 44 | Beautification | No locations specified. | Create islands with plantings at major intersections within the neighborhood. | |
| 45 | Beautification | 5700 block of 5th Road South | The grass strip along the wood fence separating Glen Carlyn from the hospital property is overgrown with weeds and dead shrubs and needs attention. | Incorporate into Recently Suggested Environmental Projects #2. |
| 46 | Beautification | 5900 Block of 2nd Street | The grove of trees at the back of Kenmore (at Manchester) are overwhelmed with invasives and it's a completely unmanaged space. | Covered by Recently Suggested Environmental Projects #9. |
| 47 | Streetlight Improvement | No locations specified. | Defer to streetlight management plan | Defer until Streetlight Management Plan is approved. |
| 48 | Streetlight Improvement | No locations specified. | Good lighting is helpful but it does shine in windows to the distraction of some neighbors Need to be confident the lighting benefits outweighs the concerns. | Defer until Streetlight Management Plan is approved. |
| 49 | Streetlight Improvement | 2nd street south west side near S. manchester | We need lights near the backstop or the end of the street to dissuade overnight activity in the field. | Pursue with county as a safety issue. |
| 50 | Streetlight Improvement | 5700-5800 4th St and 3rd St to Kensington St. | Better lighting along main walking areas from Carlin Springs Road through to library | Defer until Streetlight Management Plan is approved. |

| # | Category | Location to be improved | Problem/Suggested Improvement | Comments |
|----|-------------------------|--|---|--|
| 51 | Streetlight Improvement | 5700 block of South First Street. | Retime the streetlight so it is on during usable night time and not coming on after 11 pm and staying on all night. | Pursue with county as a problem report. |
| 52 | Streetlight Improvement | 5th Road South | One more streetlight, and lights need to be upgraded. They are old, dim, and an eyesore. | Defer until Streetlight Management Plan is approved. |
| 53 | Streetlight Improvement | No locations specified. | add more lights everywhere | Defer until Streetlight Management Plan is approved. |
| 54 | Streetlight Improvement | Jefferson st., 4th street 5600 block, etc | Street lights that scatter down and minimize light pollution. | Defer until Streetlight Management Plan is approved. |
| 55 | Streetlight Improvement | Kenmore School field | [I know this isn't exactly streetlights, but...] Address the excessive bright light bleedover from current athletic field lights. From the east side of neighborhood, on 3rd Street, it looks like a car is approaching with extremely bright headlights! Current lights can't possibly be appropriate/compliant. | Pursue with county as a problem report. |
| 56 | Streetlight Improvement | At the end of 5th St S, past 5413, the streetlight never goes off. We have filed numerous tickets with the county, but it remains on 24\7. | In the parking lot at 4th and Harrison, by the park, at the end of 5th st, there is evidence of drug activity. Motion-activated spotlights after midnight could mitigate activity there. | Pursue with county as a safety issue. |
| 57 | Streetlight Improvement | 5900 block of 4th St. S | The 5900 block of 4th St. S is VERY dark. Would be nice to improve with modern streetlights. | Defer until Streetlight Management Plan is approved. |
| 58 | Streetlight Improvement | I don't know the specific blocks that need improved lighting. When we are ready to propose this I will. | TBD | Defer until Streetlight Management Plan is approved. |
| 59 | Streetlight Improvement | 5th St between S Jefferson and S Kensington | Light needed in general. My neighbor had her front storm door smashed in an attempted robbery on this dark block. | Defer until Streetlight Management Plan is approved. |
| 60 | Streetlight Improvement | Multiple locations | Replace ugly cyclops and electric pole suspended lights with freestanding lamps of uniform desing. Consider solar-powered lamps. | Defer until Streetlight Management Plan is approved. |
| 61 | Streetlight Improvement | 5700-5800 3rd St & 4th St until Kensington St | Better lighting between Carlin Springs Road and library | Defer until Streetlight Management Plan is approved. |
| 62 | Streetlight Improvement | Not specified - from K Krug email | More street lights are needed on Lexington. It's way too dark. | Defer until Streetlight Management Plan is approved. |
